Professional Summary

Full-Stack Developer with hands-on experience building scalable web and mobile applications using MERN Stack, Next.js, React Native, and modern JavaScript technologies. Experienced in developing AI-powered solutions through the integration of modern AI technologies, with a strong focus on performance, scalability, and user experience.

Professional Experience

Full Stack Developer, Nexal IT Services <i>onsit</i>	06/2026 – Present onsite
Developed and maintained scalable web applications using MERN Stack, Next.js, NestJS, Angular, and WordPress. Built responsive UIs with React, Next.js, and Angular, focusing on performance and UX. Designed RESTful APIs with Node.js, Express, and NestJS. Worked with MongoDB for schema design and query optimization. Integrated third-party APIs, authentication, and payment systems. Customized WordPress themes and plugins. Collaborated across teams and followed best practices for testing, version control, and deployment.	
Junior MERN Stack Developer, Zero Vertical Labs	11/2025 – 06/2026 Onsite
- Developed and maintained scalable full-stack web and mobile applications using React.js, Next.js, React Native, Node.js, Express.js, and MongoDB. - Contributed to the development and deployment of cross-platform mobile applications for iOS and Android, implementing responsive UI, API integrations, and feature enhancements. - Built modern, dynamic, and user-centric interfaces using React.js, Next.js, Hooks, Context API, and reusable component architectures - Designed and integrated RESTful APIs with Node.js and Express.js, connecting frontend applications to databases and third-party services. Managed application state efficiently using Redux Toolkit and Context API to ensure seamless user experiences across complex applications - Developed collaborative productivity and workflow management platforms with features such as task management, team collaboration, and real-time updates. - Integrated Firebase services including authentication, push notifications, cloud storage, and real-time database functionality. Implemented AI-powered features and automation workflows using OpenAI APIs to streamline processes, automate tasks, and enhance user interactions. - Worked with MongoDB for database design, schema modeling, and performance optimization. Customized and deployed WordPress solutions, including theme development, plugin integration, and client-specific functionality	
MERN Stack Developer Intern, Lokhandwala Web Solutions	08/2025 – 10/2025 Remote
- Built 6+ RESTful API endpoints in Node.js and Express, connected with MongoDB for data storage and JWT-based authentication. - Helped improve React Native app performance through lazy loading and bundle-size reduction, making the app feel noticeably faster on older devices. - Wrote unit tests with Jest and React Testing Library for key components, helping the team catch bugs before they reached production.	

- Documented APIs and components in Notion, making it easier for teammates to understand and reuse existing code.

Full Stack Engineer, Industrial 3d Simulation platforms

Developed scalable web applications using PHP, NestJS, Three.js, JavaScript, and MySQL. Built responsive user interfaces, designed RESTful APIs, optimized databases, and implemented authentication and third-party API integrations. Collaborated with teams while following best practices for clean code, version control, testing, and deployment.

06/2026 – Present
remote

Appointment Scheduler, HQ 360

HR & Appointment Scheduler
May 2026 – Present* Managed appointment scheduling and coordinated meetings with clients and leads* Assisted in recruitment, candidate communication, and onboarding processes* Maintained professional communication with clients and team members* Handled lead follow-ups and ensured smooth coordination between departments* Supported team productivity through effective scheduling and organizational management* Built strong communication and client-handling skills in a professional work environment

05/2026 – 06/2026
remote

Human Resources Manager, Zero Vertical Labs

Transitioned from a Web Development Intern role to Human Resources, demonstrating strong communication, organizational, and team management skills.
Key Responsibilities: Managing recruitment processes including job postings, screening candidates, and coordinating interviews
Assisting in onboarding new employees and ensuring a smooth joining experience
Maintaining employee records and HR documentation
Coordinating with different departments to understand hiring needs
Supporting employee engagement and internal communication activities
Assisting in performance tracking and HR operations

10/2025 – 06/2026

Education

Diploma in Advanced Software Development, Aptech Garden

2023 – 2025

Intermediate (ICS), Ziauddin College

In Progress

Technical Skills

Frontend — Proficient

React.js, Vue.js, Angular, Next.js 14 (App Router), Svelte, Three.js, Redux Toolkit, Context API, React Hooks, React Router, Tailwind CSS, Framer Motion, Material UI, styled-components

Backend

Node.js, Express.js, NestJS, Next.js, PHP, Laravel, C#, ASP.NET [🔗](#), REST APIs, JWT Authentication, OAuth, NextAuth.js

Databases

MongoDB Atlas, Mongoose, PostgreSQL (basic), Firebase Firestore

CMS

WordPress (theme customization, plugin integration)

Mobile

React Native, Expo, React Navigation, AsyncStorage, Flutter, Dart, Android, C

AI / LLM Integration

Groq AI, OpenAI APIs, LLaMA 3.3 70B, Prompt Engineering, AI Automation, Resume Parsing

DevOps & Tools

Git, GitHub, GitHub Actions (CI/CD), Vercel, Postman
